

The Money letter authorship is once more agitated. It is time the question should be decided.

Every Territory in the United States has applied to Congress for admission into the Union as a State.

The Michigan Legislature has appropriated \$265,000 for the relief of the sufferers by the fires last Fall.

As Governor Crittenden of Missouri refuses to call the Legislature of that State together, one Congressman-at-large will have to be elected.

His friends say that Judge Rising would not decline the Republican nomination for Supreme Judge this Fall. He would be a strong man on the ticket.

It is said that the report of the Secretary of the Interior will show that millions of acres of railroad land grants have been forfeited, and by Act of Congress should be returned to the people.

Of the eighty-seven members added to the House since the apportionment of 1850, the rapidly growing Western States have called for fifty-five. "Westward the star of Empire takes its way."

The colored citizens of Washington, arranging for a celebration of Emancipation Day, denounced the recent remarks of Senator John P. Jones in reference to the colored race, as reported in his speech on the Chinese bill.

The bullion shipments from the Tombstone district for February amounted to \$418,000. Nearly all of the Tombstone mines are on a dividend paying basis. Arizona's bullion yield for 1882 will be larger than ever.

The rumor that Collector Robertson, of New York, will be sent abroad, and his place filled by Commissioner French a New York stalwart, is by many believed to be well founded. Secretary Folger is said to favor early action.

Nine polygamists, out of eleven members composing the City Council of Ogden have resigned, and it is said that the vacancies have been filled by the Mayor by the appointment of others who are not polygamists in practice.

In case of a big rain up in the mountains just now, some of the ranchmen that have been growing and howling about sickens are liable to have the cause of their unhappiness removed to a depth of about six feet below the original soil.

The Democratic papers of this State are demagoguing on the Chinese bill, claiming it as a Democratic measure and urging voters to remember their friends. This is an awful thin play to make party capital, especially when the bill has yet to run the gauntlet of a Republican House and be signed by a Republican President before it can become a law.

One of the ablest Republican journals in Kansas pronounces the scheme to elect a Governor of that State by a combination between the Democrats and Anti-Prohibitionists as childish and certain to fail. This warning will not be heeded. The Democracy are always willing to combine with any party or any ism, when there is no show for them on the resolutions of '98.

The Sacramento City election resulted in the election of Wm. Guttenberger, the Democratic candidate, for third Trustee. The remainder of the Republican ticket was elected, Chief of Police Karcher, (R.) beating Lee, (D.) his opponent by 80 votes. Anderson, (R.) for City Attorney, has about 600 majority. The Republican Fire Commissioners were elected by good majorities.

Senator Edmunds has introduced a bill to promote the efficiency of the army by the retirement of officers, voluntarily or otherwise, after certain periods of service. It provides, among other things, that hereafter all officers of the army who, by reason of a reduction of the army, or who, at their own request, or by direction of the President may be retired, shall be entitled to graduated compensation for their services. A very good measure.

Seven petitions have been received at the White House for the pardon of Sergeant Mason—one from Chicago, one from Boston, one from Tennessee and the remainder from Ohio. None were numerously signed. The impression is general that an investigation of the sentence will be granted, if not a full pardon. Adjutant-General Drum said the crime of Mason was one of the highest known to military law, but, nevertheless, an investigation of his sentence would not be opposed by the War Department.

BRISTOL'S FUTURE.

[Bristol Times.]  
The future of our camp is certainly very bright and from all indications the time cannot be far distant when we shall be brought into prominence as a bullion producer of the first rank. Every additional stroke of work added to that which has already been done on our principal mines is turning out larger quantities of high grade ore than at any time heretofore. There is more of the precious mineral in sight now than has ever been met with at any one time previously. The Mayflower lately made a new strike and shows up a splendid body of ore, the presence of which had never been suspected. This company with such a mass of rich rock in sight should alone make Bristol a good camp. The Day has two large bodies of fine ore exposed and is only awaiting the arrival of machinery adequate for the work required in hoisting large quantities of mineral for reduction. The Tempest and Iron mines are known to have fine ledges of considerable width, and when work is resumed upon these valuable properties, a large daily output of rich ore will be the result. Reduction works capable of rapid and extensive working will certainly be required. The Noonday, Loro Vale and other brilliant mines in the vicinity are being systematically worked and the indications at present prove them to be wonderfully rich in ore. Besides these principal mines, there are many prospects located on the Bristol range most of which have splendid ledges in sight and give promises of grand quantities of metal at but little depth. Prospectors and locators do not seem to be at all desirous of selling out, as their prospects are more than likely to double in value before the end of the present year.  
Buildings are rapidly going up on all sides showing the confidence our people have in Bristol. Many improvements are being made in various ways, and we therefore hope that we will soon see a handsome, as well as lively place before many months have passed over our devoted heads.

THE BONANZA PENALTIES

[Corson Appeal 16th.]  
The Appeal in its issue of the 11th instant, stated that the aggregate penalties due the State and Storey county from the Bonanza firm amount to \$72,568.99. These figures were received from Controller Hailcock, and are absolutely correct. Since the publication of this fact a large number of the Appeal's exchanges have copied the item, but increased the amount due to ninety odd thousand dollars, presumably adding interest upon the original amount. This is a mistake, as no interest can be collected upon a judgment unless it is specified therein, which is not the case, in this instance. The question involved herein was conclusively settled in this State in 1876, when a suit for \$15,000 damages was brought against the V. & T. R. R. Company, and decided in favor of the plaintiff. The payment of the judgment was deferred until 1878. When the amount of the damages was tendered to the representatives of the plaintiff they declined it unless legal interest was added. The Railroad Company refused to pay interest and suit was accordingly brought in a District Court. The substance of the Judge's decision, in the case, was: "That when the judgment of the Court is silent as regards the collection of interest it does not authorize the issuance of any execution calling for interest." The decision was affirmed by the Supreme Court of Nevada, hence the Bonanza firm will be called upon to pay only the sum originally sued for.

WOOD RIVER ITEMS.

The Wood River Mining News of the 11th has the following:  
Many of the Wood Riverites who went east, west and south to pass the Winter, are returning.  
Quite a number of people from various parts of Idaho have appeared on our streets this week.  
General John B. Winters, who has been passing the Winter at Ketchum, was in Hailey nearly all the week.  
The greater part of the snow has slid off the mountains about Elkhorn, and no more snow slides are looked for this season.  
Passengers are pouring in now at the rate of from 100 to 150 per week, and business activity increases proportionately.

A Working Congress.

[S. F. Bulletin.]  
Congress, notwithstanding the fact that it is so nearly divided, appears to be a working body. At this early date in the session the bill to prohibit polygamy has passed both houses. The bill to suspend Chinese immigration is well on the road to what all on the coast believe to be final passage and approval. The tariff is likely to be handed over to a commission, which will save a great deal of heated discussion at this session. But the bank and money questions remain. These are quite sufficient to occupy Congress for the remainder of the term. The first session of a Congress usually continues well into the summer. It is generally adjourned by the force heat of June at the National Capitol.

No Discrimination Against Democrats.

[Gold Hill News]  
The Republican Representatives at Washington adopted a resolution in caucus that savors of unjust discrimination. Representative Robeson presided, and a resolution was adopted, without dissent, to the effect that any legislation at the present time looking to a reduction of the internal revenue taxes upon whisky, tobacco and cigars is unwise and inexpedient, but that some relief should be accorded by extending the time that whisky may remain in bond without the payment of tax. If a reduction of the revenue is desired it should be made to affect all classes alike and no discrimination made against Democrats.

The Mining South.

[S. F. Chronicle.]  
The Southern States are rapidly recovering from the prostrations of the civil war. They stand, indeed, on firmer ground than ever before. They produced more cotton last year than in any previous one. The highest figures reached before the war in slavery times was 4,669,700 bales, in 1860. The crop of 1880 was 1,100,000 bales greater. The sugar crop has not yet touched the high marks reached from 1850 to 1860; but in average value of products per acre the Southern States exhibit a recent decided improvement. It is a fact not generally known, but a fact, that Georgia since 1875 has become a large producer of gold from her mines. In 1875 there were but four gold mines worked, and the total yield was only \$40,000. In 1881 seventy-five mines were in operation, and the yield was \$4,000,000. The Mobile Register states the entire yield of the gold, silver and copper mines of the Southern States last year at \$30,000,000. Pennsylvania capitalists are now successfully operating gold mines in Virginia and North Carolina. At Rome, Ga., Tuscaloosa, Huntsville, Wesson, Montgomery, Atlanta and many other towns in Georgia, Alabama and Mississippi, a vast capital has been put into cotton mills since 1879. The best of them pay dividends of 14 to 20 per cent. a year, and none of them less than 10 or 12 per cent.

The recent growth of some of the Southern towns is as phenomenal as that of Chicago, Kansas City, Denver and Omaha. Atlanta, with less than 22,000 population in 1870 is now estimated at 50,000. An agricultural colony started among the sand hills of Alabama four years ago now numbers over 15,000, all in the most thrifty condition. Arkansas increased her immigrant stock last year by 75,000 new settlers on lands purchased from the Little Rock, Fort Smith and Iron Mountain railway corporations. North Alabama and Georgia have entered into a lively competition with Delaware and New Jersey in the production of peaches and other fruits; and in the cultivation of the grape Georgia claim to be a fair rival of California. The German immigration is taking largely to the South, and there is of late years a considerable emigration from Pennsylvania into Virginia and North Carolina. It increases with the rapidly increasing facilities in those States for inland transportation. The growth of Texas is something astounding for a purely agricultural State. It is plausibly accounted for because of the illimitable extent of rich land to which the immigrants can secure clear title from the State at \$1 to \$2 50 per acre. In 1870 Texas had less than 320,000 inhabitants; in 1880 it had 1,592,000, and now has 1,700,000; and yet its largest town is short of 25,000, and it has but five towns above 10,000.

A Profitable Business.

[S. F. Bulletin.]  
Money making is a lucrative business, no matter from what standpoint it is viewed. The profits on the issue of paper currency are enormous. There are also large gains arising from the issue of certain kinds of metallic money. Just prior to the passage of the law authorizing the resumption of specie payments, the coinage of silver was small. That was in January, 1875. It took a new start from that date. For the seven years ending June 30, 1881, the coinage was as follows:  
Trade dollars, 420 grains \$32,370,450  
Half dollars, 412 1/2 grains 21,372,705  
Half dollars, 412 1/2 grains 21,468,808  
Quarter dollars, 16,025,004  
Double dimes, 261,000  
Dimes, 7,319,941  
Total \$168,857,918

The Trade Dollars are made for private individuals for export purposes, and a coinage charge sufficient to cover cost of manufacture was exacted. These Trade Dollars were shipped to Hongkong. Subsequently a large amount was imported into New York from Hongkong by way of Southampton and San Francisco. Many of them are now in circulation in the Atlantic States to the profit of those who put them out. Bills are now before Congress to give these Trade Dollars a legal tender value, or to exchange the Standard Dollar for them, par for par.

The other coins in the above list were made for account of the Government, and the seigniorage has been covered into the Treasury. The face value of these coins is \$138,487,458. A uniform profit of nearly 12 1/2 per cent. has been turned to the Government from its manufacture. The details of this seigniorage are annually given in the reports of the Mint Director, from which we have compiled the following table, showing the gains from \$138,487,458 coined during the seven years ending June 30, 1881:

Fractional	Standard	Total
Dollars.	Dollars.	Seigniorage.
1874-5 \$25,357,327		\$25,357,327
1875-6 1,724,181		724,181
1876-7 3,015,176		3,035,176
1877-8 935,720	\$670,930	1,606,650
1878-9 3,287,463		1,606,650
1879-80 1,41	3,287,467	3,336,119
1880-1 2,111	3,287,469	3,349,671
Totals \$35,994,068	\$10,660,023	\$16,664,089

BRISTOL ITEMS.

[Bristol Times March 11th.]  
A telegraph line will be brought into Bristol sometime next month if arrangements can be perfected with the telegraph company.  
Bristol is again highly tickled over the splendid new strike in the Mayflower. This wonderfully rich property is opening out into a true bonanza, much to the gratification of our citizens.  
Trouble is brewing between the Italian coalburners and the owners of wood ranches on the other side of the range, owing to the former trying to take forcible possession of some wood ranches that have been located by other parties.

Washington Territory.

[Virginia Enterprise.]  
The bill submitted by the House Committee on Territories, providing for the admission of Washington Territory into the sisterhood of States, was supplemented with a report showing the resources of that region. The taxable property in 1881 was \$23,708,000. It is free of debt. The present taxation is two and a half mills on the dollar. The amount of poll tax for 1881 was \$108,971. Its agricultural, manufacturing, mining, fishing, and commercial resources are so excellent, and their developments are so early begun. In 1880 it produced 4,000,000 bushels of wheat, and in 1881 about 6,000,000, making an average yield of 27 1/2 bushels per acre. The cut of lumber in 1881 amounted to 300,000,000 feet, shipped to points on the Pacific Coast, South America and the Hawaiian Islands. The coal product is of a superior quality, and in 1881 was worth \$1,500,000. Its woolcrop in 1881 was worth \$4,000,000. Its manufactures for 1881 were worth \$6,000,000. The tonnage of its shipping is put at 38,018 for 1881. Ten vessels were built in the district in 1881. The exports of the Territory for 1881 are put at 4,000,000 tons. The population in 1880 was only 75,000, and the vote cast about 15,823. The bill for the admission of the Territory will meet with the opposition of Democrats, who have party reasons for their course, and the Republicans will oppose the measure unless Dakota be admitted first.

Governor Porter of Indiana says that the Republicans in that State were never so well organized as they are now. The result of this year's campaign, though, he believes will turn somewhat upon the temperance issue. This question also promises to cut some figure in Nevada politics this year.

Knowing members of Congress fix the 1st of August as the probable time for final adjournment. There is a vast amount of business of pressing importance, pending in both houses, and but little progress has yet been made towards disposing of it.

Governor Porter, of Indiana, thinks that Mr. Blaine will be an important factor in the politics of 1884, with a strong and enthusiastic following. He is also of opinion that President Arthur would like to be his own successor.

California is assured of good crops in 1882. The State has had two prosperous seasons, and a third will place everybody on "velvet." It is a great and growing State.

For a nice, pleasant cat, hot or cold go to Peckner's on Virginia street.

**MISCELLANEOUS.**

**AYER'S CATHARTIC PILLS**

FOR ALL THE PURPOSES OF A FAMILY  
PHYSIC, CURE

Costiveness, Jaundice,  
Dyspepsia, Indigestion,  
Stomach and Bowel  
Headache, Erysipelas,  
Fever, Rheumatism,  
Eruptions and Skin  
Diseases, Biliousness,  
Liver Complaint,  
Dropsy, Tetters, Tu-  
mors and Salt Rheum,  
Worms, Gout, Neu-  
ralgia, as a Dinner  
Pill, and purifying the blood, are the most con-  
genial purgative ever perfected. Their effects  
abundantly show how much they excel all other  
Pills. They are safe and pleasant to take, but  
powerful to cure. They purge out the foul  
humors of the blood, they stimulate the slug-  
gish or disordered organs into action; and they  
impart health and tone to the whole being.  
They cure not only the every day complaints of  
everybody, but formidable and dangerous dis-  
eases. Most skillful physicians, most eminent  
clergymen, and our best citizens, send certifi-  
cates of cures performed, and of great benefits  
derived from these Pills. They are the safest  
and best physic for children, because mild as  
well as effectual. Being sugar coated, they are  
easy to take, and being purely vegetable, they  
are entirely harmless.

**MISCELLANEOUS.**

**AYER'S CHERRY PECTORAL**

For Diseases of the Throat and  
Lungs, such as Coughs,  
Colds, Whooping Cough,  
Bronchitis, Asthma,

**AND CONSUMPTION.**

The few compos-  
tions, which have  
won the confidence of  
mankind and become  
household words,  
among not only one,  
but many nations,  
must have extraordi-  
nary virtues. Per-  
haps no one ever ac-  
quired so wide a repu-  
tation or maintained  
it so long as AYER'S  
CHERRY PECTORAL. It  
has been known to  
the public about forty  
years, that have won for it a confidence in its  
virtues, never equalled by any other medicine.  
It still makes the most effectual cures of Coughs,  
Colds, Consumption, that can be made by medical  
skill. Indeed, the CHERRY PECTORAL has really  
robbed these dangerous diseases of their terrors  
to a great extent, and given a feeling of im-  
munity from their fatal effects, that is well  
founded if the remedy be taken in season. Every  
family should have it in their closet for the  
ready and prompt relief of its members. Sick-  
ness, suffering, and even life is saved by this  
timely protection. The prudent should not  
neglect it, and the wise will not. Keep it by  
you for the protection it affords by its timely  
use in sudden attacks.

**MISCELLANEOUS.**

**AYER'S SARSAPARILLA,**

For Purifying the Blood.

This compound of  
the vegetable altera-  
tives, Sarsaparilla,  
Dock, Stillingia, and  
Mandrake with the  
Iodides of Potash  
and Iron, makes a  
most effectual cure  
of a series of com-  
plaints which are  
very prevalent and  
afflicting. It puri-  
fies the blood, purges  
out the lurking humors in the system, that un-  
dermine health and settle into troublesome dis-  
orders. Eruptions on the skin are the appear-  
ance on the surface of humors that should be ex-  
pelled from the blood. Internal derangements  
are the determination of these same humors to  
some internal organ or organs, whose action  
they derange, and whose substance they disease  
and destroy. AYER'S SARSAPARILLA expels these  
humors from the blood. When they are gone  
the disorders they produce disappear, such as  
Ulceration of the Liver, Stomach, Kidneys,  
Lungs, Eruptions and Eruptive diseases of the  
Skin, St. Anthony's Fire, Rose or Erysipelas,  
Fimples, Pustules, Blisters, Boils, Tumors,  
Tetter and Salt Rheum, Scald Head, Ring-worm,  
Ulcers and Sores, Rheumatism, Neuralgia, Pain  
in the Bones, Side and Head, Female Weakness,  
Sterility, Leucorrhoea arising from internal ulcer-  
ation and uterine diseases, Dropsy, Dyspepsia,  
Emaciation and General Debility. With their  
departure health returns.

**GOLD**

Great chance to make  
money. Those who al-  
ways take advantage of  
the good chances for  
making money that are offered, generally be-  
come wealthy, while those who do not improve  
such chances remain in poverty. We want  
many men, women, boys and girls to work for  
us right in their own localities. Any one can  
do the work properly from the first start. The  
business will pay more than ten times the  
wages. Expensive outfit furnished free. No  
one who engages fails to make money rapidly.  
You can devote your whole time to the work, or  
only your spare moments. Full information  
and all that is needed sent free

no 19 STINSON & CO., Portland, Maine.

**BEST**

business now before the  
public. You can make  
money faster at work for  
us than at anything else.  
We will start you \$12 a  
day and upwards made at home by the industri-  
ous. Men, women, boys and girls wanted every-  
where to work for us. Now is the time. You  
can work in spare time only or give your whole  
time to the business. You can live at home  
and do the work. No other business will pay  
you nearly as well. No one can fail to make  
enormous pay by engaging at once. Costly out-  
fit and terms free. Money made fast, easily and  
honorably. Address  
no 19 TRUE & CO., Augusta, Maine.
